SUMMARY

Senior engineer focused on fintech lending systems. I like boring, well-tested Java services and clear REST contracts.

EXPERIENCE

Senior Software Engineer — Northwind Lending (Jan 2022 – Present)
• Own the loan-servicing platform: 9 Spring Boot microservices deployed on AWS
• Cut infrastructure cost 30% by consolidating Redis caches and right-sizing Docker images
• Built a Kafka-based audit trail required for SOC 2

Software Engineer — Bluebird Fintech (May 2020 – Dec 2021)
• Implemented REST API endpoints in Java for account onboarding
• Wrote SQL migrations and reporting views for the risk team

SKILLS

Java, Spring Boot, Microservices, REST API, SQL, AWS, Redis, Docker, Kafka

EDUCATION

M.S. Computer Science, Georgia Institute of Technology (2020)
