SUMMARY

Java developer on an HR benefits platform, looking to grow into a senior backend role.

EXPERIENCE

Software Engineer — Harbor HR Systems (Sep 2022 – Present)
• Maintain the benefits-enrollment backend written in Java and Spring Boot
• Added REST API endpoints for open-enrollment, serving 120k employees
• Optimized SQL reports for HR administrators

Junior Developer — Pixel Forge Studio (Jan 2021 – Aug 2022)
• Built internal tools and Docker-based dev environments

SKILLS

Java, Spring Boot, REST API, SQL, Docker, Git

EDUCATION

B.S. Information Systems, UNC Charlotte (2020)
